EXPLANATORY NOTES:

Required Maintenance

In order to maintain warranty validation and help ensure proper safety, emissions performance and dependability of the vehicle, Lotus Cars Ltd. requires that the vehicle be serviced in accordance with this schedule. Each service should be performed within 9,000 miles (15,000 km) or 12 months of the previous service, whichever first occurs. Any necessary repairs should be completed without delay.

A cross (X) in the following table indicates an operation to be performed. The corresponding box should be ticked when the operation has been satisfactorily performed, or the X circled if extra work and time is required. The approval of the customer should be obtained before any extra work is undertaken, details of which should be recorded in the space provided at the end of the schedule.

Inspect means assess condition and test for correct operation. Extra time is required to adjust or repair - advise customer beforehand if necessary.

Check means test and adjust/fill or tighten as necessary. Labour time is included.

Special Operating Conditions

If the car is subjected to one of the following 'special operating conditions', additional servicing is required (see additional servicing notes below):

- Regular use on unpaved or dusty roads (1,2)
- Use in mountainous areas with severe or prolonged brake usage (3)
- Frequent short trips with cold engine (esp. in cold weather/climates); and/or frequent or prolonged idling (1)
- Occasional circuit use, with repeated high rpm, wide throttle openings and high oil temperatures (1,3,4)
- Competition, timed track use or repeated use of Lotus Launch Control or driver instigated standing starts (5)

Additional servicing:

1. Oil & filter change @ 4,500 m (7,500 km) intervals.
2. Inspect air cleaner @ 9,000 m (15,000 km) intervals, or as required.
3. Inspect brake pads & discs @ 1,000m (1,500 km) intervals, or as required.
4. Thorough safety check including wheels, tyres, suspension, steering and brake systems.
5. The Lotus Elise/Exige is designed as a road going sports car. It is recognised that owners may wish to use the car occasionally on closed circuit tracks to experience the car's full range of dynamic capabilities. However, use of the car in a competitive manner, including timed runs or laps, is not endorsed by Lotus. This type of timed, competitive use will invalidate warranty and require appropriate levels of expert vehicle preparation and servicing over and above that specified in the Maintenance Schedule.

After Sales Service

To be performed by the selling dealer within 1,000 - 1,500 miles (1,500 - 2,500 km) or 12 months of vehicle sale, whichever first occurs.

If carried out by the selling dealer, there is no charge to the vehicle owner for the labour content of the After Sales Service. Only for materials used will a charge be made. To maintain warranty validation, an Engine History and Performance Report print out via the Lotus TechCentre must be submitted to the Warranty Department.

Recommended Fluids & Lubricants

Lotus recommends the use of **PETRONAS** products for many of its vehicle models. Please refer to the relevant 'Vehicle Data' sections of the workshop service notes for a full list of capacities, standards and approved products.
